

- Professional staffing to the Fortune 500 since 1986

“Getting started with VMS Access was an excellent experience. We have found a technology partner that is responsive to our needs.”

Todd M. Baker, Managing Director, Finance & Operations

Hired by Matrix, Inc.

## Challenge

- Many Hired by Matrix customers have chosen to use VMS
- The VMS market tends to be very dynamic and a flexible and agile solution was needed
- Hired by Matrix had automated their VMS process prior to using Bullhorn, and there was no way they could go back to manual data entry; they needed a solution that could meet or beat what they were already

## Solution

- VMS Access automatically loads orders from 7 different VMS into Bullhorn
- The VMS Access Customer Portal is extremely easy to use and Hired by Matrix is ecstatic with the functionality
- Hired by Matrix had a few special requests and the VMS Access support team did all they could to accommodate

## Result

- VMS Access loads and updates VMS jobs quickly and reliably – Hired by Matrix recruiters depend on it every day.
- Very fast response time for service and support requests. For example, the VMS Access team connected to a new VMS to support Hired by Matrix in just 2 weeks.
- Hired by Matrix counts on VMS Access to connect to any VMS

### VMS ACCESS

Loading VMS reqs into Bullhorn, quickly and reliably, 24/7
